ELECTRIC VACUUM SUCTION CUP

Supports for outdoor raised floors
Accessories for installation

DESCRIPTION

PPL/V is a useful and practical battery-powered vacuum suction cup for handling non-porous slabs, whether for installation using adhesive or for dry-laying on outdoor raised floors.
It consists of a plastic handle mechanically fixed to the suction cup.
The battery compartment is located at the bottom of the handle and features a display showing the charge status.
At the top of the handle, beneath the start button, there is an additional display showing the suction cup's pressure status. In the event of a loss of pressure, suction is automatically restarted to maintain the vacuum and prevent accidental release.

FEATURES AND BENEFITS

- Ergonomic grip for extra comfort
- Pressure maintained automatically
- Wide range of applications: handling of non-porous slabs, both for installation using adhesive and for dry-lay installation, for outdoor raised floors
- Long-life battery
- Large gripping surface
- Suitable for handling and laying large format slabs

TECHNICAL DATA

Size:	20 cm
Handle lenght:	11 cm
Bearing capacity:	200 kg
Nominal voltage:	3,7 V
Power rating:	3,5 W
Battery capacity:	2400 mA
Charge time:	2,5 h
Working hours:	>8 h

HOW TO USE

Prior to installation, make sure it is compatible with the surface of the tile/slab to be moved.
Make sure the surface of the tile or slab is perfectly clean and that there are no traces of dirt, adhesive or any other material that could affect its grip.

During use, it is recommended to wear gloves and goggles and follow the safety requirements of the workplace.

Clean the surface of the slab.	
Place the battery-powered vacuum suction cup on the surface of the slab to be moved. While pressing the handle, press the start button.	

Wait until the battery-powered vacuum suction cup has reached the required pressure. Move the slab.	
Place the slab on the laying surface. Press the start button twice to release the pressure so that you can remove the battery-powered vacuum suction cup.	

PACKAGING

The carry-case contains:

- 1 battery-powered vacuum suction cup;
- 2 rechargeable batteries;
- 1 battery charger;
- instructions in Italian and English.
