Profiles and accessories for installation

Protiler

Description

Protiler is a levelling system for the laying of ceramic and stone tiles.
It is suitable for thicknesses from 3 to 20 mm and prevents the vertical movement between tiles during the adhesive grip phase.
The wedge is unique for all clips and is reusable several times.
Specific pliers are available for the laying of floors and coverings for less effort and saving time.

Material

PP
All the elements are made of PolyPropylene or PolyPropylene homopolymer.

Laying

Spread the tile adhesive on the surface to be tiled.
Lay the first tile.
Place the clips under the tile along the perimeter so that the base is well inserted, depending on the size of the tile place one or more clips on each side.
Approach the next tile until it rests on the clip.
Insert the wedge into the slot of the clip until the tiles are leveled, to facilitate this operation we recommend using the special plier.
Wait until the adhesive is dry.
Remove the wedges with a rubber hammer by beating in the direction of grout.

Consumption

To calculate the indicative consumption per square meter see table.
On the vertical axis A and horizontal B the dimensions of the tiles are indicated in cm.
You can find the indicative consumption calculated per square meter at the inserction of the 2 measures.

A (cm)	B (cm)												
10	200												
15	133	89											
20	100	67	50										
25	80	53	40	32									
30	100	67	50	40	44								
33	91	61	45	36	40	37							
40	75	50	37	30	33	30	25						
45	67	44	33	27	30	27	22	20					
50	60	40	30	24	27	24	20	13	16				
60	50	33	25	20	22	20	17	15	10	11			
80	50	33	25	20	21	19	16	14	15	10	9		
90	44	30	22	18	19	17	14	12	15	9	8	7	
100	50	33	25	20	20	18	15	13	15	10	9	8	8
120	42	28	21	17	17	15	13	11	15	8	7	6	7	6
	10	15	20	25	30	33	40	45	50	60	80	90	100	120

Fire-fighting measures

In case of fire use chemical products, dry sand or solid agents for extinguishing.

Notes

Directions, provisions, references, instructions and regulations are based on European Standards that are independent from other supplement or specifications of any other single country. Each information, though corresponding to our experience and analysis, is to be considered indicative and should be evaluated by the installer according to the site specifications. If you have any doubts, do your own tests or ask for further information to our Technical Department. Profilpas disclaims any liability for any damage to persons or property arising from improper use of the product. The user is required to determine whether or not the product is fit for use and assumes any responsibility for improper installation of the material.
